

Motor Vehicle Accident Claims

Drs. Whittaker accepts cases for AUTOPAC injury claims. There are a few "rules" regarding claiming injury benefits:

- The accident must be reported to AUTOPAC.
- In order to qualify for chiropractic care for your injuries you must receive an injury claim number (this is separate from a vehicle claim number) from AUTOPAC.
- Once you receive your injury claim number you may come in and be examined by Drs. Whittaker.
- Drs. Whittaker will then prepare all the necessary paperwork for your claim and then upon approval, chiropractic care can begin for your injuries.
- All services are billed directly to AUTOPAC.

Work Related Injuries

Drs. Whittaker accepts cases due to a work injury. There are also a few "rules" when a person has been injured on the job.

- The injury must be reported to the employer.
- The employer must complete an Employee Accident Report and submit this form to WCB.
- Drs. Whittaker is considered a primary care practitioner as long as the worker has not visited their Medical Doctor first. If the worker has seen their MD before their chiropractor a referral note is required.
- Drs. Whittaker must complete and submit a Chiropractor's First Report to WCB outlining the workers injuries.
- Upon approval of the First Report, chiropractic care can begin and it will last for the timeframe approved by WCB.
